

# TAND

## Mini-Symposium

### 2023

TSC-Associated Neuropsychiatric Disorders (TAND)

**The TAND consortium invites you to the  
2023 TAND Mini-Symposium**

**29 June 2023 14:00-16:30 CET on Zoom**

The TAND consortium is an international group of professionals and family stakeholders who work together to perform relevant and impactful research on TAND (TSC-Associated Neuropsychiatric Disorders) and to encourage the next generation of TAND researchers around the globe. This event offers the opportunity for members of the TAND community to exchange research ideas and build future collaborative networks. We are particularly interested to accept submissions from early-career researchers (including undergraduate, postgraduate and post-doctoral students) who are conducting TAND research.

#### **FORMAT AND REGISTRATION:**

Presentations will use a 5-minute rapid-fire format allowing time to cover a broad range of topics. Time will be allocated for discussion of topics for the audience to ask for more information.

To register for this free online research event, please click on the registration link below:

<https://uct-za.zoom.us/meeting/register/tJ0tcOmpzsoHNV0f5nUxwfeEpwxALZXTQdE>

#### **TO SUBMIT AN ABSTRACT:**

Researchers are invited to submit a scientific abstract by **5pm CET on 15 May 2023**.

Please submit your abstract to [tandconsortium@gmail.com](mailto:tandconsortium@gmail.com)

The abstract should consist of (a) a title, (b) contact details and (c) a 250 word abstract, including introduction, methods, results (if applicable) and conclusion.

Abstracts are invited for any type of TAND-related studies, including study protocols, case studies, ongoing studies, and/or research/literature reviews.

Authors of accepted abstracts will receive instructions for presenting their research within the 5-minute rapid-fire format.
