

Join the TANDem-2 Journey

Let's explore TAND together

TANDem-2 is a research study focused on understanding how Tuberous Sclerosis Complex (TSC) - Associated Neuropsychiatric Disorders (TAND) change over time. Your participation can help drive new discoveries and lead to better support!

Who can join?

- Adults with TSC
- Family caregivers of individuals with TSC (of any age)

What will I need to do?

- ✓ Register to use the TAND Toolkit App
- ✓ Complete the questionnaires in the app 5 times over a one-year period to share your TAND journey

Why join this study?

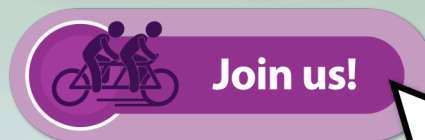

- Understand how your TAND changes over time
- Access tools to help manage TAND challenges
- Support research that benefits families and clinicians
